

In the past, we have given out calendars to our customers, and we are going to do that again in 2011. However, we are going to be making them ourselves, and we want your pictures. We need pictures for the calendar pages, and we would like to give you an opportunity to show off your equipment. Maybe you fixed your vehicle up to look real nice, or have one cool looking tractor. What ever it is, you may be able to have it seen in our calendars.

If your equipment is chosen, it will be featured on one of the pages in the calendar we make.

The guidelines are fairly simple:

We want pictures of mowers (lawn tractor, garden tractor, or zero turn), farm tractors, cars, trucks, or motorcycles. It doesn't have to be all shined and polished, if you want people to see that it isn't just for show, that is fine.

The pictures need to be high quality. Sorry, most cell phone cameras won't do a good enough picture. If you can get it to our store, we can take a picture of it for you.

Make sure that the picture is clear, and easy to see.

All brands are welcome, even if we don't sell the brand you have.

We prefer that you do not have people in the picture.

There are a limited number of spots for pictures, since there are only 12 months in a year. If we have enough pictures, we may make more than one calendar design.

**We need the pictures by September 15th to give us time to prepare and print the calendars.**

If you have a digital picture, you can email it to [cfe@colearminc.com](mailto:cfe@colearminc.com). If it is a print picture, you can bring it to the store for us to scan it in.

By signing below, you give us permission to use the picture of your equipment. You will be recognized by name with the picture of your equipment, but there will be no compensation.
